1 Introduction

1.1 Welcome to my homepage @ ASF

My name is Vincent Siveton. I born and grow up in France and I live now in [Montréal, Canada](#). I am an IT Advisor@ [CRIM](#) (Computer Research Institute of Montreal) and I love traveling (see my visited countries!).

Since more 10 years, I've been working as a software engineer and a project manager with emphasis on new emerging technologies/specifications.

My interests are mainly the Open Source, Open Innovation, Technological Survey, Java, Agility, Quality Assurance, Mobility and of course traveling!

I started with Open Source lately, firstly by using products (Apache httpd, my first webapp!) and after by using frameworks (Apache Struts, Commons...) and tools (Apache Ant, Maven). In 2004, I joined the Apache Maven mailing list and after, the classical route: accepted patches, committer (thanks aheritier), PMC and Member (thanks brett).

During my spare times, I contribute to several nice projects :

- [Apache Maven](#), PMC member (I used it to build this site :-))
- [Apache Shindig](#), PMC member
- [Apache Wave](#), Mentor
- [Codehaus Mojo](#), Committer
- [Codehaus Modello](#), Committer

In the past, I also contributed to:

- [Codehaus Plexus](#)
- [Codehaus Cargo](#)
- [Eclipse M2e](#)

You can reach me writing on vsiveton AT apache DOT org and find me on:  ,  .

Au plaisir!

2 My Résumé
